

*Esteemed Colleagues,*

*As you may be aware, several companies have recently developed magical devices commonly known simply as “staffs”. These devices allow their users to cast spells in new and powerful ways. A few pioneering students have already started using staffs. Doubtless, many more will soon follow their example.*

*So, we should try to understand what the impact of these staffs will be for us here at the school. To that end, you are cordially invited to attend a mandatory meeting tomorrow to discuss the matter. I have identified the following topics as being of particular interest:*

- 1. Educational Outcomes*
- 2. Safety & Logistics*
- 3. Academic Integrity*
- 4. Equal Opportunity*

*Please familiarize yourself with some aspects of how staffs work and what they can do ahead of time. By sharing our expertise, we can all learn a bit more about this exciting and powerful new technology.*
